Profile

Articulate, target-driven MCA candidate with hands-on experience in consultative stakeholder engagement and business development coordination. Directly managed 70+ stakeholders – entrepreneurs, farmers, and field resource persons – across an 11,000+ record base, driving a 1.3–1.4× increase in business activity and sales through consistent follow-up and relationship management. Bringing strong written and verbal English communication, a consultative and execution-focused approach, and comfort working toward weekly performance targets to a client counseling and business development role.

Core Skills

- **Client Communication & Counseling:** Stakeholder Coordination, Professional Written & Verbal Communication, Needs Assessment, Follow-up Management, Query & Discrepancy Resolution
- **Business Development Support:** Prospect & Market Research, Opportunity Tracking, Pipeline Documentation, Cross-functional Coordination
- **Execution & Target Management:** Deadline-Driven Delivery, Process Coordination, Data Validation & Reconciliation, KPI-Oriented Reporting
- **Data & Reporting Tools:** Excel, Google Sheets

Experience

MIS Assistant *Jul 2025 – Oct 2025*

People Action for National Integration (PANI) – Utraula CSAL-2 Project

- Managed and validated a database of **11,000+ farmer records**, maintaining accurate stakeholder information and supporting timely field-level reporting and follow-ups.
- Coordinated directly and indirectly with **28 Community Resource Persons (CRPs)** to track field activities, collect data, communicate updates, and resolve operational issues.
- Worked directly with **22 agricultural entrepreneurs**, understanding their requirements, tracking business progress, and providing regular follow-up and growth support – a consultative, relationship-driven approach directly transferable to client counseling.
- Coordinated with **50+ farmers and stakeholders**, maintaining relationships, resolving queries, and ensuring timely communication between field stakeholders and project teams.
- Supported agricultural entrepreneurs through business guidance and field-level coordination, contributing to an **approx. 1.3× increase** in reported business activity during the project period.
- Facilitated stakeholder engagement around local business opportunities, contributing to approximately **Rs. 50,000 in investment activity** within 3 months.
- Tracked demand and sales of agricultural products (rice, wheat, potato, other seeds, cattle feed), with project-level sales showing an **approx. 1.4× increase** during the engagement period.
- Prepared recurring MIS reports and analyzed historical trends to communicate performance updates and support data-backed planning and decision-making.
