PROFILE

Motivated MCA student with experience in Full-Stack Development and Machine Learning. Skilled in React.js, Node.js, and Python (ML, Streamlit), with hands-on experience in building real-time applications like spam detection and recommendation systems. Strong in data handling, MIS reporting, and core computer science fundamentals.

EDUCATION

Siddharth University, Kapilvastu, Siddharth Nagar

Bachelor of Computer Applications (BCA) | CGPA: 8.12/10

Sept 2021 – May 2024

Jawaharlal Nehru University

Master of Computer Applications (MCA) | CGPA: 7.2/9

August 2025 – May 2027

EXPERIENCE

MIS ASSISTANT | PEOPLE ACTION FOR NATIONAL INTEGRATION (PANI)

JULY 2025 – OCTOBER 2025

- Managed and maintained datasets using MS Excel and MIS tools.
- Cleaned and validated field data to ensure high accuracy.
- Generated daily, weekly, and monthly reports for project tracking.
- Built dashboards using Pivot Tables and VLOOKUP.
- Collaborated with field teams to collect and update data.

TECHNICAL SKILLS

Programming: Java, Python, JavaScript, SQL

Web Technologies: HTML, CSS

Frameworks/Libraries: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Machine Learning: Classification, Recommendation Systems

Core Concepts: DSA, OOP, DBMS, OS

Tools: Git, GitHub, Streamlit

PROJECTS

Email/SMS Spam Detection System

Python, Streamlit, Machine Learning

- Developed a spam detection system using machine learning algorithms.
- Performed text preprocessing and feature extraction (TF-IDF).
- Built a Streamlit web app for real-time predictions.
- Achieved accurate classification of spam and non-spam messages.

Movie Recommendation System

Python, Machine Learning, Streamlit

- Built a movie recommendation system using content-based filtering.
- Performed data preprocessing and similarity calculations.
- Developed a Streamlit application for real-time recommendations.
- Improved recommendation relevance using similarity techniques.
